ANTHONY MWANGI

FRONT-END SOFTWARE ENGINEER

PROFESSIONAL SUMMARY

I am a Front-End Software Engineer with 7+ years of experience delivering scalable web and cross-platform mobile apps using **React**, **TypeScript**, and **React Native**.

I have a proven track record of taking end-to-end ownership of features, which is fueled by deep passion for my work and the desire to solve real-world problems through simple, reliable, and high-impact solutions.

I'm always looking for new challenges and opportunities and will thrive in mission-driven teams where autonomy, collaboration, and continuous learning are key.

WORK EXPERIENCE

Senior Software Engineer | April 2025 - Current

Scrums.com (Formerly SovTech)

- Led architecture and technical direction for customer and shopper apps
- Collaborated with product and design teams to deliver high-quality, reliable features
- Responsible for enforcing development standards as the team lead.

Front-End Software Engineer | 2023 - 2025

Zepz (WorldRemit & SendWave)

- Collaborated with the web team to implement redesigned marketing and user experience flows.
- Built a unified React component library shared across WorldRemit and Sendwave products.
- Developed the Zepz calculator & created the WorldRemit currency-converter feature that enhanced the SEO ranking for WorldRemit by providing global customers with transparent Pre-Transfer quotes on a wide range of currency exchange rates
- Contributed to the Zephyrus Team to build the internal dashboard for FinCrime and CustomerOps teams.

Full Stack Engineer | 2021 - 2023

SovTech

- Rebuilt the Android OneCart Shopper App with React Native.
- Contributed to developing the OneCart customer app and internal analytics dashboards.
- Contributed to the Backend team in migrating the OneCart backend from Node.js to serverless architecture.
